

2021 CSA Agreement

We, the farm, wish to provide you with fresh, local, seasonal food and you, the member, wish to receive a portion of our harvest. This agreement outlines our shared commitments to that relationship. By purchasing a membership share, you agree to the terms and conditions outlined herein.

-Becoming a Member of Happy Toes Homestead

CSA stands for Community Supported Agriculture, which is basically a subscription for vegetables. Members pay up front to secure their share. We farmers then use the money to buy seeds and equipment and get food growing. Then, each week, beginning in mid/late May 2021 to early/mid October 2021, we deliver organic, home-grown vegetables to our farm members. We also offer a flower share from June 2021-August 2021.

-Growing Practices

We believe in providing fresh, seasonal, local veggies from our farm to your home. We believe in being open and honest about our farming practices and about all inputs used on our farm. We are certified organic. All seeds are either certified organic or untreated and non-GMO. We use physical barriers, crop rotation, and, when necessary, organic approved inputs, to protect crops from pests and diseases and to improve soil fertility. We welcome any inquires about our growing practices.

-We wash our hands frequently and clean and disinfect all harvest equipment thoroughly prior to use. We also take our temperature prior to working and anyone exhibiting any symptoms of illness does not work on the farm.

-Shared Risk

Members of our farm get the opportunity to share in the abundance of an urban Columbus farm. With that opportunity there are risks associated with our growing season. We are committed to minimizing those risks, yet risks will always remain. We promise to do our best to provide you with a bountiful share each week. The quantity of produce, however, may vary from week-to-week due to extreme weather, insects, or other production factors despite our best efforts. By joining our CSA, you are agreeing to share the risk of crop failure with us and our other members.

In the unlikely event of crop failure: If only a small portion of crops fail, we compensate for the failed crops by filling your box with other crops grown on the farm that are ready for harvest at that time. If a large portion of crops fail, we may not be able to deliver any products in some weeks. Should this happen, members will be contacted directly, as soon as possible to discuss options for remediation. However, it is unlikely that we would be able to refund memberships or even partial memberships as the money is used to fund the seasons expenses. Please take this into consideration when joining the CSA.

-Shared Reward

In addition to our CSA, Happy Toes Homestead sells to several local restaurants, direct one-on-one sales, and farmer's markets. We do this in order to create a financially stable and

sustainable farm that can offer our community the freshest food, as well as provide us farmers a livable wage. Some crops we grow specifically for these wholesale (for example, microgreens are typically wholesale only). When production of our CSA crops are especially abundant, we pack as much as possible into your share. However, we don't want to overwhelm our members or deliver so much produce that it goes to waste. When we feel that members have received enough of certain crops, we handle the surplus by selling it through the avenues described above. If you have any questions about this please feel free to contact us. Our CSA is a critical sales avenue so if you feel you need to discuss the amounts you get week to week please bring it up with Katie.
